Meet the Team Continuing to Make it Happen for you

The Webster Law Firm is a team of experienced, passionate and dedicated lawyers who have all handled a wide range of cases and obtained many successful results. We profile AI's Leading Pharmaceutical Litigator of the Year in Texas in the 2018 Leading Adviser Awards.

Boasting a wealth of expertise in an assortment of areas, the Webster Law Firm works with a vast array of clients on cases which are varied across the legal sector. Additionally, the Webster Law Firm have experience handling cases involving commercial litigation, storm/hail damage, Stericycle and fair labour standards.

At the helm of the company is Nationwide personal injury lawyer, Jason Webster who is one of the few attorneys to try a pharmaceutical case to a jury. This previous experience has given Jason the ability to lure in high-profile clients to the firm to work with him. Jason is a licensed legal representative in Texas, New York, Pennsylvania, Mississippi, Illinois, and Oklahoma, representing clients nationwide. He has achieved a number of notable recognitions, all of which have contributed to his enhanced reputation.

In fact, within six months of opening the doors of his law firm, he was able to get together a large pharmaceutical case docket and successfully reach a settlement for the clients involved. Jason has also represented clients involved in types of premises liability cases, and has also successfully prosecuted several medical malpractice cases, tried, and in some cases, settled many construction accidents, 18-wheeler wrecks, and burn cases.

Furthermore, Jason is a native Texan who attended Tarleton State University. After two years, he transferred to Sam Houston State University and graduated with a degree in criminal justice. Jason then went on to South Texas College of Law where he finished at the top of his class. Predominantly, Jason focuses heavily on pharmaceutical litigation, he is one of the few lawyers who have actually tried a pharmaceutical case to a jury.

Utilising its excellent standing within the legal sector, the Webster Law Firm has the resources available to establish itself as a leader amongst its competitors. The team work exceptionally hard to navigate their way through the legal case, giving

it their own personal attention and time in order to ensure that the desired outcome is reached on both sides.

When working on different cases, the Webster Law Firm incorporates past trial experiences into the cases it handles, as it possesses a strong record of success and a wide range of experience. The team maintains strong success in the area of pharmaceutical litigation, including handling the recall of Granuflo and Naturalyte. Another crucial aspect of the firm's experience also extends to the pursuit of just compensation for individuals who have been harmed by storm and hail damage and issues related to other natural disasters.

As part of the firm's wonderful customer service, the team works with clients on discussing the particular case in question and work out what the best way forward will be. In the event that a lawyer is unavailable, a competent and experienced staff member can handle the evaluation and then consult with an attorney from the office about the details of the discussion.

Working with the client the whole way through the project, from the client's first free case evaluation with a lawyer at the office, all the way through to the end of your case, the team aggressively fights for its clients' rights. Every case is prepared as though it will go before the jury. The aggressive personal injury attorneys never run from a tough case, even in the face of adversity and its preparations for each case include incorporating the strategies the team has learned through Gerry Spence's Trial Lawyers College. Importantly, with an end goal in sight, the Webster Law Firm strives for client interaction and build the most effective defense strategy possible for our clients.

What is important to the firm's clients is that the team will not stop when pursuing the best result for them, and they are also aware that each client is unique and therefore the case and the approach may need to be different. Webster Law Firm's

personal injury attorneys understand that in some situations, there needs to be solid proof to place their trust in an individual, concept, or company.

Legal representation is one of these areas. For this reason, the firm have included some of the case results that it has obtained on behalf of its personal injury clients. Results obtained in specific cases depend on various factors that are unique to each case, but the following information can help you better understand its strong legal abilities.

Importantly, the firm has achieved some wonderful results in the past, and they are a key indicator of how hard the team work, and how far they go in order to achieve the best results. The results the legal team have obtained for its clients are the result of the team's devotion to clients, as well as its extensive experience in this field of law.

As well as Jason, there are many other experienced and well-renowned lawyers working at the law firm. With all members boasting qualifications which are unrivalled across the region, it is no wonder that clients are excited to work with the exciting and forward-thinking Webster Law Firm.

One member of the excellent team is Heidi Olsen Vicknair, grew up in a small town named Ponchatoula in Louisiana and Heidi attended Tulane University in New Orleans, and subsequently graduated with honours and received a double Bachelor's degree in Political Science and Psychology. From there, she then went on to attend Tulane University School of Law and graduated in 2004 with a focus on Louisiana Civil Law.

Following law school Heidi moved to Houston, she took the Texas Bar exam and began practicing law with an employment law firm. Eventually, Heidi

turned her focus to Plaintiff's Personal Injury and Medical Malpractice and soon discovered assisting clients in getting compensation for their injuries was a rewarding and fulfilling experience. In February 2012, Heidi joined the Webster Law Firm to assist with large pharmaceutical dockets as well as personal injury cases.

With his sights set on making a difference as an attorney, Omar joined The Webster Law Firm in early 2014. Omar is young and eager to advocate on behalf of those who have been wronged and will stop at no end to try to help his clients become whole. Since his start at The Webster Law Firm, Omar has tried over a dozen lawsuits. He has tried several lawsuits to a jury in Houston, but also tried a breach of contract case to a judge in Las Vegas, Nevada as well as a pedestrian auto wreck case to an arbitrator in Tucson, Arizona. In addition to trying these lawsuits, Omar has settled over millions of dollars of cases with The Webster Law Firm. While working at the Webster Law Firm, Omar attended the prestigious Trial Lawyers College in Dubois, Wyoming.

One of the most notable additions to firm's litigation team in 2016 is that of welcoming attorney, Russell Serafin, Of Counsel to the Webster Law Firm. Russell is an experienced Trial Attorney who is an integral part in getting injured individuals and families the justice that the law allows, as well as, providing guidance to the younger attorneys at the Webster Law Firm. Russell has worked side by side with the Webster Law Firm in the past and as recently as January of 2015.

He was part of the successful trial team that received a favourable \$7 million-dollar verdict in Brazoria County, Texas. In addition, Russell assisted in the litigation involving the widow of the

plane crash which was settled on the eve of trial in 2016. Prior to becoming Counsel at the Webster Law Firm, Russell was a former partner at Vinson & Elkins and has been a solo practitioner.

Robert J. Barringer graduated from Texas Tech University with a Bachelor of Science and a Master's of Science in Civil Engineering. Robert began his legal career with Thomas N. Thurlow & Associates, wherein he concentrated on pharmaceutical litigation involving Fen-Phen. Since starting out his in career, Robert has represented numerous clients in their handling of pharmaceutical claims, including Avandia, Actos, Gadolinium, Baycol, PPA, Vioxx, Seroquel, Risperdal just to name a few. He has worked on various dockets with Mr. Webster since 2005.

Bringing a lot to the team, Robert's engineering background provides a unique perspective not commonly found in other Trial Attorneys when dealing with cases involving pharmaceutical litigation, defect drug cases, automobile and 18-wheeler truck collisions, medical mal-practice claims, product defect and liability cases, and construction accident and injury cases.

Whilst working at the Webster Law Firm, the team continues to represent people who have been injured by the negligence of others. He has been involved in a number of high profile cases including the tragic train derailment in Lac Megantic, Quebec.

Overall, it is the law firm's overwhelming experience which has led to the team at the Webster Law Firm being enthusiastic and positive about the future of the firm. Whilst looking to gain the desired outcome for both the client and the firm, there is a long-term vision that the Webster Law Firm will establish itself as a leader within Texas and further afield.
